LOYAL SUPPLY CO.

Shonn, Ky.

By: W. C. Stump

Prior to 1921, a Harlan County Merchant, and former "commissary man" by the name of Rick Partin, opened a three story general store at Loyall, Ky. Mr. Partin issued scrip at his establishment which was well stocked with items for everyday use. The scrip was made of aluminum and was rather unusual because it had Loyall spelled with only one L. For many years, I had been told that the store was owned by a man by the name of Loyal. However, this was not the case. I have yet to find out why the town is called Loyall. Many scrip collectors and dealers, including myself, have the Loyal Supply Co. scrip in their collections or inventory, but I could not find any information concerning this early Harlan County scrip.

Loyall is located about 2 miles South of Harlan along the banks of the Cumberland River and the old Louisville and Nashville Railroad. The community was known, as it is today, as a railroad town. The U. S. Post Office was called Shonn, Ky. The small town was not incorporated until 1929, and until then, it had no police force. It was a "sorta wild and lawless place to live" during its early history. Even the City records that date back to 1929 list the city name Loyall but have "Loyall" crossed out and "Shonn" written over the crossed out area on many early documents. Loyall, Ky. evidently gained its name from the the L & N Railroal.

One of the original "old Timers" of the pre-incorporated days of the town of Loyall is Claude White. As a small boy, Claude and his family moved into the town of Loyall, Ky. He recalls the days when the road that is now Highway 119 ran through the area that is known as Black Bottom. It followed the same route as the L & N Railroad and came out near the area now known as Rio Vista. The road was called "the County Pike" and is still referred to by that name. The only bridge crossing into the area known as "New Loyall" was a swinging bridge built by "Uncle" Wix Howard, a native pioneer of Harlan County. It was located at the end of "Black Bottom" near the old water pump that served the railroad.

The Howard Brothers owned most of the property across the river. Claude recalls when the first bridge was built by "Uncle" Wix Howard. The entire area on the far side of the river was one large corn field. According to Mr. White, "'Uncle' Wix Howard decided to sell the land across the river and auctioned the lots off. He had each lot marked with a small American flag. I remember gathering up the flags with other boys my age after the land sale was completed. 'Uncle' Wix built a good bridge across the river just so he could sell the property. The bridge was of wood construction and had only one lane. Shortly after the property had been sold,

houses soon filled the lots that had been a corn field."

Claude also recalled the first Police Judge to serve the new City of Loyall after it had been incorporated in 1929. Claude said, " Verlin Lingar was the first Police Judge and Oscar Simpson was the first Town Marshall. Simpson, after his term as a law officer, left Loyall. He was arrested in Evarts and was killed while he was in the Evarts Jail. Someone shot him from the outside through the bars of his cell. Another Town Marshall by the name of Delk served for a short while, and then one of the best law men in Kentucky served for many years. He was Cody Long and was known for not having a fearful bone in his body. He cleaned up Loyall and ran all undesirables right out of town."

Today, Loyall, Ky., once the wild Railroad town of yesteryear, has turned into a quiet and respectable retirement town. The L & N Railroad ceased to exist and only on special occasions does one get to see an old steam locomotive huff and puff its way to the old Loyall Railroad Yard. Finding an example of the old Loyal Supply scrip from anyone other than a scrip collector is nearly impossible. Shonn, Ky. exists only in the memories of the "old Timers" like my friend, Claude White. Yet history can come alive when you add his memories with a set of Loyal Supply Scrip.

WE URGENTLY NEED A GOOD COLLECTION TO SELL THROUGH THE MAIL AUCTION.. OVER 400 COLLECTORS WILL BE EXPOSED TO YOUR OFFERING!! WE HAVE NOTHING TO LIST IN THE NEXT AUCTION SALE SO LET ME HEAR FROM YOU TODAY !! WE ARE IN NEED OF HIGHER RARITY TOKENS ONLY !! WHAT CONSTITUTES A "SET" OF SCRIP ??

I see that in the September "SCRIP TALK" you are again in need of articles. Sometime ago I began a response to the question from James Brosius, which was broached in the May issue on the subject of what constitutes a "set".

I think it is axiomatic that a complete set of coal tokens is worth more than the total of the individual pieces in the set. (This is the first good reason to ascertain what a full set is. The second major reason is to establish precise nomenclature for use in ads, articles, and the like, so that we all know what we are talking about.

It is my understanding of it that sometimes a company at a particular location has issued tokens from 1¢ thru \$5.00, and if a collector has only the 5¢ thru \$1.00 tokens, he nevertheless possesses a "set" of five pieces. Strangely enough, it also follows that if he then acquires the 1¢ piece, he still has a set, but it is a six piece set. Further, if this collector then acquires the \$5.00 token, he now has a SET..

But there is a further wrinkle to this paradox. This year I purchased a "set" of six pieces of Lake Superior 2723 but when it arrived, the "set" consisted of A1; D5b; A10, A25; D50 and G100. "Ah", the purist will say, "you was swindled, you see." Well, maybe: I paid \$6.50 for the aggregation, which I thought was a fair price. The scrip were perhaps misrepresented to me, or they were not described properly. However, the tokens all say Lake Superior Coal Co., Superior, W.Va. The only differences are in the manufacturer's identification and patent status; in other words, the mint mark.

So long as the inmates of NSCA are so cavalieri willing to allow a group of scrip which is short one or two pieces to be called a "set", it is only a short step to permitting the mixture I bought to be called a "set".

Nevertheless, the practice offends reason.

For the purpose of accuracy and I hope, simplification, I would like to suggest the following:

1. Short Set. A set which is missing one piece, the missing piece or pieces to be identified in parenthesis.
2. Mismatched Set. A set which has all denominations, but of different manufactures's ID or patent status marks.

These two categories have parallels in U.S. federal coinage. A 'short' set is for example a set of Mercury dimes or Walking Liberty Halves from 1941 through 1945 or 1947. A 'mismatched' set would be, say, a date set of Wartime Nickels of 1942 through 1945, but from different mints. Why anyone would want such a set of strays is not up for discussion here. Let it suffice to say that Wartime Nickels are not quite coal scrip. But Wartime Nickel collectors are at large under their own recognizance, and must be left to their own devices.

WHAT CONSTITUTES A "SET" OF SCRIP ??

There is further precedent for short sets within U.S. federal coinage. Several coin albums years ago were manufactured with certain holes not full punched out. The 1922 "Plain" Lincoln Cent was one. The 1856 Flying Eagle was another. This has been carried even farther with the popularity of U.S. Type Sets, in which everything except the commonest coin of each series may be eliminated from one's collecting goal.

From what I have been able to determine, most coal scrip collectors still hope for and strive for what Edkins called a "matched set".

For this reason, if for no other, an accurate description of what is being offered for sale or bid, or for discussion, is certainly desirable.

WHAT IS CHRISTMAS COAL ??

Scriptor R. R. Tippy sends along an advertisement from a national magazine and I quote as follows: "Whether they've been naughty or nice, give them coal in their stockings. Just \$12.95. Here's a Christmas gift that's sure to make them chuckle - at a price that will make you smile. Just \$12.95 buys you a genuine lump of Christmas coal, neatly packaged in an elegant red pouch. Complete with a brief commentary on "The History and Mystery of Christmas Coal". In olden days, coal was given as a reward as well as a punishment " Unquote.

Anyone know anything about Christmas Coal?? I could probably round up a few tons to sell at \$12.95 for a small lump....

An anonymous Scriptor has advised at a hoard of SANDLICK COAL COMPANY, WHITESBURG, KY. has surfaced. So, if you are offered sets from this company, use your best judgement on what to pay for them...

THE NEXT ISSUE OF THE BULLETIN (PROBABLY LATE IN OCTOBER) WILL REMIND THAT 1989 DUES ARE BEING SOLICITED !! BLUEFIELD MEETING AUCTION - SATURDAY, OCTOBER 1, 1988

The following listing is presented for those who may not be able to attend the Bluefield Meeting. Your MAIL BIDS are solicited. As in the past, the Auction Coordinator will bid for you and get you the lowest possible price. All tokens are believed to be in normal acceptable condition, except as noted. Minimum bid for any lot is \$5.00 except where higher minimum bids (MB) are specified. We accept higher MB listings in order to attract quality material. The consignors, however, have agreed to pay a specified commission if the MB is not obtained. POSTAGE & INSURANCE will be added to all successful bids. All bidders will be notified of the selling prices for the lots on which they bid. The commission from this special auction is used to defray meeting expenses.

Please send your bids to BILL WILLIAMS, Auction Coordinator, PO Box 3013, Oak Ridge, TN 37830 so as to arrive not later than September 29, 1988. Phone bids will be accepted until 11:00 PM EST September 29. My phone number is 615-482-1616.

SCRIP TALK

'DIS AND DATA' AS TIME AND SPACE PERMITS...Scriptor Hugh Cooper has provided an article for this issue on what constitutes a "SET" of scrip. Comments from the members are requested for future publication. Too, his article fails to address the problem of some company listed in the catalog with only three or four pieces known to exist. There might have been other denominations and possibly this company used only three or four pieces of scrip. Would the three or four pieces be considered a "SET" since they might possibly have been the only items used by the company.....SCRIPTOR R. R. TIPPY recently sent Senator Robert Byrd a set of Koppers scrip and the Senate Majority Leader from West Virginia replied to Tip with a nice personal letter. He noted that he had worked at Koppers Stores in Helen, Stotesbury, Stanaford and Montgomery. Incidentally, the Senator and I were licensed to sell Farm Bureau insurance back in 1946 (doesn't seem possible that it was 42 years ago) while he was a butcher in one of the company stores..He went on to better things and I stayed bound to the insurance desk. He....Tippy also penned that the Blue Ridge Numismatic Association bulletin carried a story on coal scrip that he had written several years ago. He wonders why more NSCA members do not take the time to get their scrip story out to various publications.....SCRIPTOR PAUL JENSEN has something that he has never seen before - It is a set of scrip made by ICS with the obverse simply reading "Trade/1/Check (with a small star each side)" The reverse is the normal ICS scales with pat'd June 19. All are solid brass. Any member have any ideas on this one??.....

SCRIP COLLECTOR CAPS

Crawford Blakeman authorized the purchase of 200 caps to be sold to members at the Bluefield and subsequent meetings. These caps also may be purchased by mail by those who will not be attending the Bluefield meeting.

They are in two styles and five different colors. One style is the NSC Logo. The other is the name of the organization. Both are illustrated below

 SALE COMMENTS: I am fearful that many of you collectors are not checking out the listings carefully!! Please note that one lucky collector got a \$5 and \$10 Winding Gulf Coals (Lot 121) plus eight other tokens for only the minimum bid of \$1 per token!! Also - Lot 45 - an UL R10 for only \$10. Or - An unlisted R10 (Lot 54) from Silush for only \$10. And - how about a complete set of Cannelton (Lot 83) for only \$5. Just some of the real bargains in Sale No. 122. But - Lot 110 the New River set from Whipple went for \$86.00 - a good buy.

The two pieces in Lot 118 from Wickham (New River Co.) gives an indication of the scarcity of tokens from this location. The two tokens went for \$40.00 indicating that a set from this location is worth \$100.00. The Richwood Store Company set (Lot 35) went for \$52.60 which is another good buy for this set!!

We urge that you check Sale No. 123 carefully!! Remember - the net proceeds from the Mail Sale helps to keep the bulletin coming your way. What with the increase in postal rates, we need your help in the sales!!

 The janitor and Scriptor Snodgrass have indicated that there may be some surprises in store for those attending the National Convention in Bluefield !! You never know what these two might spring on you so make your plans now to attend on Saturday and Sunday, October 1st and 2nd.
